# Abhinav Ram Kola

Digital Project Manager · System Implementation & Ownership · Supply Chain Digitalization

+46 768 203 688 · abhinavram98@gmail.com · abhinavramkola.github.io/Profile · Värnamo, Sweden

## PROFILE

Digital Project Manager with experience leading end-to-end software implementations, system ownership, and digital transformation across global supply chains. Proven track record taking projects from requirements and vendor selection through to go-live, change management, and training. Specialised in supplier management systems, procurement digitalization, and sustainability compliance (CBAM, ESG). Comfortable managing stakeholders at all levels, coordinating external vendors, and owning systems long-term after delivery.

| **Languages** | English (Advanced) · Hindi (Advanced) · Telugu (Advanced) · Japanese (Basic) |

## EXPERIENCE

### Digital Project Manager

*Jun 2024 – Present*

**BUFAB International AB** Sweden

- Led digital projects across sourcing and sustainability that touched operations in 60+ companies within the BUFAB Group
- Built and scaled the Supplier Master Management (SMM) system, centralising data for 9,000+ suppliers became long-term system owner responsible for data quality, compliance, and ongoing development
- Currently leading full procurement and implementation lifecycle for a new SMM platform ran RFI, conducted market benchmarking, managed live vendor demos, reached final negotiation rounds, and now mapping resources and implementation plan
- Built BUFAB's CBAM compliance solution from scratch: requirements, automated data collection, database setup, and XML bulk reporting to EU systems
- Created and maintained Qlik Sense dashboards used by around 100 managers and lead buyers for KPI tracking and compliance reporting

- Automated sourcing team workflows saving around 3 hours per week per buyer across 88 lead buyers, over 260 hours saved every week company-wide
- Managed full project delivery from requirements through to go-live, change management, and user training working with 10+ business and sustainability stakeholders
- Coordinated external consultants on SMM, automation, and data warehouse projects, keeping everyone aligned and on track
- Sat on the Change Advisory Board (CAB), reviewing and signing off on system changes before they went live
- Managed one direct report, helping with day-to-day delivery and their professional development

### Digital Project Developer
*Sep 2022 – Jun 2024*

**BUFAB International AB** Sweden

- Helped digitalize buying workflows, making it easier for teams to collaborate and track what was happening
- Built Qlik Sense dashboards and reports that gave leadership better visibility into sourcing and sustainability data
- Worked with business and IT teams to design and roll out digital tools that made day-to-day work faster and less manual
- Contributed to automation projects that simplified how supply chain data was collected and reported
- Part of the early team that built sustainability tools later rolled out across the whole BUFAB Group

### Management Trainee – Sourcing & Digitalization
*Sep 2021 – Sep 2022*

**BUFAB International AB** Sweden

- Rotated across sourcing, ESG reporting, and digital projects, getting a broad view of how the supply chain works end to end
- Helped build early sustainability tools that were later picked up and used across the whole group
- Worked with business and IT teams to spot where processes could be improved and helped put fixes in place

## EDUCATION

### Master's in Software Engineering
*Jan 2019 – Sep 2021*

**Blekinge Institute of Technology** Karlskrona, Sweden

*Merit Scholarship recipient*

### Bachelor of Technology, Computer Science
*2015 – 2018*

**Jawaharlal Nehru Technological University** Hyderabad, India

## KEY NUMBERS

- 260+ hours saved every week company-wide through buying workflow automation across 88 lead buyers
- 9,000+ suppliers centralised in the SMM system, supporting compliance across 60+ group companies
- Full CBAM compliance setup delivered before the regulatory deadline: data collection, database, and EU reporting
- Around 100 managers and buyers now use the dashboards daily for performance and compliance tracking
