Abhinav Ram Kola

Digital Project Manager · System Implementation & Ownership · Supply Chain Digitalization

+46 768 203 688 · abhinavram98@gmail.com · abhinavramkola.github.io/Profile · Värnamo, Sweden

PROFILE

Digital Project Manager with experience leading end-to-end software implementations, system ownership, and digital transformation across global supply chains. Proven track record taking projects from requirements and vendor selection through to go-live, change management, and training. Specialised in supplier management systems, procurement digitalization, and sustainability compliance (CBAM, ESG). Comfortable managing stakeholders at all levels, coordinating external vendors, and owning systems long-term after delivery.

SKILLS

Project Management	End-to-End Implementation · Stakeholder Management · Agile / Scrum · CAB · Risk Management
System Implementation	Requirements Gathering · RFI / RFP · Vendor Selection · Go-Live Management · System Ownership
Change & Training	Change Management · User Onboarding · Training Delivery · Adoption Tracking
Digital & Automation	Process Automation · Workflow Design · ERP Integration · Procurement Digitalization
Data & BI	Qlik Sense · KPI Dashboards · SQL · Data Warehousing · Compliance Reporting
Sustainability	CBAM · ESG Reporting · EU Regulatory Compliance · XML Bulk Reporting
Tools & Systems	Supplier Relationship Management (SRM) · Supplier Master Data (MDM) · Microsoft 365 · SharePoint
Languages	English (Advanced) · Hindi (Advanced) · Telugu (Advanced) · Japanese (Basic)

EXPERIENCE

Digital Project Manager

Jun 2024 – Present

BUFAB International AB Sweden

- Led digital projects across sourcing and sustainability that touched operations in 60+ companies within the BUFAB Group
- Built and scaled the Supplier Master Management (SMM) system, centralising data for 9,000+ suppliers became long-term system owner responsible for data quality, compliance, and ongoing development
- Currently leading full procurement and implementation lifecycle for a new SMM platform ran RFI, conducted market benchmarking, managed live vendor demos, reached final negotiation rounds, and now mapping resources and implementation plan
- Built BUFAB's CBAM compliance solution from scratch: requirements, automated data collection, database setup, and XML bulk reporting to EU systems
- Created and maintained Qlik Sense dashboards used by around 100 managers and lead buyers for KPI tracking and compliance reporting
- Automated sourcing team workflows saving around 3 hours per week per buyer across 88 lead buyers, over 260 hours saved every week company-wide
- Managed full project delivery from requirements through to go-live, change management, and user training working with 10+ business and sustainability stakeholders

- Coordinated external consultants on SMM, automation, and data warehouse projects, keeping everyone aligned and on track
- Sat on the Change Advisory Board (CAB), reviewing and signing off on system changes before they went live
- Managed one direct report, helping with day-to-day delivery and their professional development

Digital Project Developer
Sep 2022 – Jun 2024

BUFAB International AB Sweden

- Helped digitalize buying workflows, making it easier for teams to collaborate and track what was happening
- Built Qlik Sense dashboards and reports that gave leadership better visibility into sourcing and sustainability data
- Worked with business and IT teams to design and roll out digital tools that made day-to-day work faster and less manual
- Contributed to automation projects that simplified how supply chain data was collected and reported
- Part of the early team that built sustainability tools later rolled out across the whole BUFAB Group

Management Trainee – Sourcing & Digitalization
Sep 2021 – Sep 2022

BUFAB International AB Sweden

- Rotated across sourcing, ESG reporting, and digital projects, getting a broad view of how the supply chain works end to end
- Helped build early sustainability tools that were later picked up and used across the whole group
- Worked with business and IT teams to spot where processes could be improved and helped put fixes in place

EDUCATION

Master's in Software Engineering
Jan 2019 – Sep 2021

Blekinge Institute of Technology Karlskrona, Sweden

Merit Scholarship recipient

Bachelor of Technology, Computer Science
2015 – 2018

Jawaharlal Nehru Technological University Hyderabad, India

KEY NUMBERS

- 260+ hours saved every week company-wide through buying workflow automation across 88 lead buyers
- 9,000+ suppliers centralised in the SMM system, supporting compliance across 60+ group companies
- Full CBAM compliance setup delivered before the regulatory deadline: data collection, database, and EU reporting
- Around 100 managers and buyers now use the dashboards daily for performance and compliance tracking
